

K. K. K. GOVERN BY BLACKMAIL

Emperor Simmons Issues Statement Showing Evil Effects of Klan's Present Administration

FOUNDER BACKED

Inner Governing Body of Organization Cast Support to the Originator of Order

Atlanta, Ga., April 5.—The invisible empire under the present administration of the Ku Klux Klan became a government by blackmail, declared Emperor William J. Simmons, founder of the organization, in a statement issued here tonight.

He said that he intended to see to it that "the money coming into the treasury of the organization shall no longer be diverted to the purpose of blackmailing klansmen."

About the time the emperor was making this statement, three to five thousand klansmen assembled in the auditorium of the Nathan Bedford Forrest park, No. 1, the first klansman to be organized, and proclaimed him imperial wizard of the order.

At the same time that the klansmen gathered, it was announced that the klansmen, inner governing council of the order, had also swung into the emperor's forces.

It became known through the announcement of the mother klans that a convention, secretly held here Monday night, attended by the majority of the members of the klans, had voted to support Simmons.

This, it appears, was done while Imperial Wizard J. W. Evans was engaged in conference in New York.

Taking of evidence in the hearing on the court order requiring Emperor William J. Simmons to show why the injunction, brought by him and his lieutenants last Monday against H. W. Evans and others, should not be dismissed, was concluded in the superior court late today. Judge E. W. Thomas adjourned court until tomorrow afternoon when arguments will be made.

Affidavits intended to prove that Imperial Wizard Evans has been in actual possession of the imperial palace, headquarters of the klans here, as well as of all records and other property of the order, were presented by Paul B. Edwards, Imperial Wizard of the klans, who contended that the Simmons faction had obtained the court order "illegitimately" by representing that Emperor Simmons was in control of the klans.

Counsel for Emperor Simmons filed objections to all evidence introduced tending to indicate that Mr. Evans had been regularly elected as head of the order at the klans convention held last November, contending that as emperor, Colonel Simmons remained the directing head of the Ku Klux Klan, which he founded.

J. V. Poole, associate counsel for Emperor Simmons, introduced an amendment to the original petition, charging H. W. Evans, Imperial Wizard, and Fred Savage, chief of staff, with appropriating funds of the klans for their own use.

WARDING BACK IN CAPITAL SUNDAY

Feels Extension of Golf Expedition Inevitable Because of Pressing Matters

Augusta, Ga., April 5.—President Harding will be back at his desk at the White House next Monday.

An announcement was made today by Secretary Christian that the executive and Mrs. Harding had decided to postpone their vacation in the south Saturday and that their presidential party would leave Augusta Saturday evening and arrive in Washington Monday.

It was said that Mr. Harding has decided to decline invitations to visit several cities between Augusta and Washington.

The President was said to be pressing for attention, he could not extend his absence from the capital longer. It has been just a month since he left Washington.

There was merely a duplication of the President's schedule of the day, consisting of a morning round of golf and an afternoon spent quietly at his home.

Other members of the party were entertained this evening at a dinner given by the Klansmen of Augusta.

In addition to the official business which the President's return to Washington, the President, upon returning back there, will decide definitely with regard to the trip to the Pacific coast and Alaska, which he has under consideration and also with regard to the address he is to deliver in case he makes the trip.

CAR RUNS AWAY DOWN HILL; WOMAN IS KILLED

New York, April 5.—One woman was killed and several other persons injured tonight when a car careened down a steep hill and rolled backward and forward into another car which was at the bottom of the hill on the same track.

Frank Manner, motorist of the car, was arrested charged with criminal negligence.

Miss Kate Murphy, who was pinned under the wheels for half an hour, was taken to Lincoln Hospital.

WILL NOT NEGLECT COUNTY ROAD WORK

Commissioner Greene Denies Report to Contrary; Says Exact Opposite Is True

FOUNDER BACKED

Inner Governing Body of Organization Cast Support to the Originator of Order

Albany, April 5.—The attention of Frederick Stuart Greene, state commissioner of highways, has been called to the publication of articles which aim to spread throughout the state propaganda that, under his administration, the department will neglect counties of work needed for the maintenance and reconstruction of highways.

Questioned concerning the matter the commissioner answered: "The flood of articles plainly is partisan propaganda. The similarity of the wording shows that it is 'bitter plate' stuff, evidently coming from a single source, which is unfriendly to the present administration and which deliberately seeks to misinform and mislead the public by trying to create the impression that the roads of this state will be neglected during the present season."

"The exact opposite is true," Commissioner Greene declared with emphasis. "More funds are asked for and will be used to put the roads in good condition this year than has been used in any previous year. The legislature has granted us larger sums for both general maintenance and reconstruction than it has ever given to the highway department for that purpose, and the department is organized on a basis so efficient that the people will receive a dollar in benefit for every dollar expended. Here are the true figures. They are public record and I challenge anybody to successfully contradict them."

General maintenance (state budget), 1922, \$5,274,900
General maintenance (state budget), 1923, 5,785,550
Resurfacing and reconstruction (state budget), 1922, 876,980
Resurfacing and reconstruction (state budget), 1923, 2,204,440
Federal aid reconstruction, 1922, 1,853,565
Federal aid reconstruction, 1923, 2,849,520
Miles of reconstruction and resurfacing put under contract during 1922, 109.25
Miles of reconstruction and resurfacing put under contract during 1923, 161.00

"These records show that the highway department purposes using in 1923, \$5,484,940 more for maintenance and reconstruction than was used in 1922, and more than was ever used in any year since the highway department was organized."

DEATH SENTENCE FOR OLD OFFENSE

Man Who Took Part in Execution of Mutiny Leader Lieut. Schmidt Convicted After 18 Years

(By the Associated Press.)

Sebastopol, April 5.—After a lapse of 18 years Lieutenant Stevaki, who took part in the execution of Lieutenant Schmidt, commander of the Russian cruiser, Otchakov, and who in 1905 headed the mutiny of the Russian Black Sea fleet, has been convicted by a Soviet court and sentenced to death.

In 1905 a mutiny of 4,000 soldiers at Sebastopol broke out. Schmidt, who had been dismissed from the Russian navy because of his revolutionary opinions, went on board the cruiser Otchakov and assumed command of the vessel and other ships which joined the mutiny. On Nov. 27 the Otchakov and nine other craft of the Black Sea fleet, together with a regiment of infantry, attempted to seize Sebastopol. The ships opened fire on the port, which replied, sinking the Otchakov and the Dnieper and a transport. Schmidt was captured.

The seven remaining warships surrendered to the loyal units of the fleet of Admiral Choukma, and on Nov. 28 the regiment which had revolted was forced to surrender. The casualties among the mutineers were estimated at 2,000.

Schmidt was tried and convicted for the part he took in the mutiny and was shot together with three of his sailors, on Mar. 19, 1924.

SOVIETS REGARD PRELATE KILLING INCIDENT CLOSED

(By the Associated Press.)

Moscow, April 5.—The Soviet government's attitude that the matter of the execution of Vicar-General Butchkevich and the imprisonment of Archbishop of Zepiak was an internal problem and is now a closed incident, despite foreign protests, was reflected today in the attitude of some of the foreign missions in Moscow. Rumors current yesterday that the Polish legation might withdraw brought forth a denial today from British mission.

The chief of the Soviet government, referred to the Soviet government's attitude toward the prelate, and the shooting to British executives in Ireland and India. To this the Soviet government replied that the contents of the note were probably already published and it trusted that the British government was thereby informed and would not interfere in the future.

AFTER DANCING RECORD

New York, April 5.—In an effort to break the 22 hour dancing record which cable dispatch today gave to Gen. Bernier, French student, Jack Butler, World war veteran, and Miss Ruth Bellack, tonight began a torrid dance marathon in a White Light dance hall. They started at 5 p.m. With Alma Cummings of Texas, recently danced 22 hours in New York.

DEVELOP STATE WATER POWER

N. Y. Chamber of Commerce Recommends Diversion of State Boundaries in Power System

CHEAP ELECTRICITY

Necessary, However, That Operation Be on Large Scale Production to Secure Benefits

New York, April 5.—Diversion of state boundary lines in the development of the waterpower resources of New York state as part of the super-power system, was recommended by the chamber of commerce of New York state in resolutions adopted at a meeting today.

The contention of Governor Smith that the United States supreme court should pass upon the validity of the federal water power law of 1920, and the Eech act, was upheld by the report of a special committee on water power development in New York state which stated that "when the status of the federal and state governments with respect to water power resources is fixed by the supreme court a great impetus should be given to water power development throughout the entire nation."

Should Know Exact Status.

"The Eech act," the report said, "brings into question state sovereignty and federal power and the issues involved should be promptly determined by the courts. The exact jurisdiction of the two governments over boundary streams and navigable waters within a state should come before a court of last appeal so that those who wish to develop power projects may know the respective limitations of the state and the United States."

The report declared that it would be "a mistake to restrict the energy derived from water power to any arbitrarily chosen limits."

"In order that our community secure cheap power," it continued, "and our people be able to compete with other parts of the country upon an equal basis in power costs, it is necessary that our water power system be developed on a large scale without regard to boundary lines, and with co-operation with our neighbors."

The report opposed the suggestions of Governor Smith that the state unilaterally condemn, lease, use or operate hydro-electric plants, stating that government ownership and operation of such facilities and other enterprises had been conspicuously extravagant and inefficient. Definitely established laws which would insure safety of principal and make possible a reasonable return on the investment to private capital would insure the prompt, economic and efficient development of the state's water power resources, the report asserted.

TENDS TO PROVE EINSTEIN THEORY

Photos Made During Eclipse Appear to Show Outward Displacement Predicted

Toronto, April 5.—Observations made at Walla, on the northwest coast of Australia during a complete eclipse of the sun on Sept. 21, by Toronto scientists provide evidence distinctly favorable to the Einstein theory of relativity. C. A. Chant, professor of astronomy at the University of Toronto, declared today.

Analysis of the measurements and calculations made by the scientists who went to Australia with the expressed hope of gathering evidence to test the Einstein theory has partially indicated the accuracy of the theory, Professor Chant said.

"The result is that evidence distinctly favors the Einstein theory," he said, "although it cannot be said to prove it."

Einstein, Professor Chant said, had predicted that if his theory was correct the stars, when photographed with the sun apparently in their midst, would show a displacement outward from the sun as compared with the position of the same stars when the sun was absent from their portion of the heavens. Two photographs of the eclipse conditions were obtained at Walla while photographs of the normal conditions were taken at night in June with the same camera from a position on the island of Tahiti in the southern Pacific ocean.

FAMOUS HOTEL OF SOUTH BURNED; GUESTS ESCAPE

Hot Springs, Ark., April 5.—The Arlington hotel, oldest hostelry in Hot Springs and one of the most noted in the south, was destroyed by fire of undetermined origin late today. All guests, numbering more than 200, escaped without serious injury, although dense smoke threatened to overcome many as they groped for exits.

The loss was estimated tonight at more than \$1,000,000.

Loss of personal effects, including jewelry, money and clothing of guests will run into a considerable figure. Most of the hotel occupants were left with only the clothing they wore when the alarm was given.

Fifty persons were caught in the smoke filled halls and rescued by firemen.

One woman was killed and two others seriously hurt late tonight when a wall of the building fell.

CHAPMAN STILL HAS FREEDOM

Said to Be Handed East, Very Sick Man; Temperature 100 Before Escape

MANY SCOFF IDEA

Egyptologists Say All Explorers in Valley Would Have Died Years Ago If Theory Efficacious

Athens, Ga., April 5.—Gerald Chapman, escaped federal penitentiary prisoner and leader of the \$995,000 Leonard Green mail robbery in New York, in 1921, is headed east tonight, a very sick man, but with his freedom, according to federal and state officers who have followed what was believed to be his trail today.

Chapman escaped from the Atlanta penitentiary a week ago. Two days later he was brought to a local hospital, having been wounded when he and his partner, Frank Gray, a convicted forger, were caught near here. Last night Chapman hurled himself out of a second story window of the hospital and began his second flight.

Before taking the leap the prisoner dressed himself in the extra clothes of his guard, who sat outside the hospital room door. The guard's explanation for having the extra clothing is said to have been satisfactory to his superiors.

Chapman left behind no trail except the imprint of his body in the soft turf below the window and a few footprints, as he made his hurried exit from the hospital grounds. The trail ended at the sidewalk where, officers believed, an automobile awaited him.

Chapman was confined in the hospital because he was too ill, according to the authorities, to be removed to the Atlantic prison. A wound in the kidneys and one in the right arm, which almost shattered a bone, were causing him much suffering.

Shortly before he escaped his temperature was recorded at 100.

DELAY SETTLEMENT IN A. OF O. REFUND

Wadsworth Asks Why U. S. Was Not Paid Year Ago Out of \$100,000 Marks Payment

(By the Associated Press.)

Paris, April 5.—Contrary to expectations, the conference called to consider reimbursement of the American occupational expenses in the Rhineland did not conclude its labors today. Adjournment was taken until Monday, and a final meeting will be necessary later, according to establishment of complete arrangements.

Elmer Wadsworth, assistant secretary of the treasury, representing the United States, today requested additional details concerning the plans for a settlement. The allied spokesman expressed surprise at this and voiced the belief that, in order to come to a final arrangement, it might be necessary to set forth the whole reparations question to the American delegate.

He added that Mr. Wadsworth had also brought up a "rather unpleasant point" by asking why the \$255,000,000 due the United States was not paid a year ago out of the 1,000,000,000 gold marks received from Germany when Roland W. Boyden, unofficial American representative on the reparations commission, asked for it, and when the money was distributed among the allies without reference to the costs of the American army on the Rhine.

For these and other reasons, the conference advanced slowly today, making the further meetings necessary.

ITALIAN CROWD INJURES PROHIBITION OFFICERS

New York, April 5.—Attacked by a crowd of Italians while raiding a garage in the upper East Side, tonight two prohibition agents fought their way clear after firing several shots. They were slightly injured by rocks and bricks hurled by the mob. Three men were arrested and liquor valued at \$6,000 was seized.

Other agents raided an office in a downtown financial district building and put to flight 29 brokers who were slipping highballs. A large quantity of liquor was seized and four men of whom had brought in a five gallon jar of alcohol, were arrested. They were held in \$500 bail each.

Federal agents carried out a series of widely scattered raids in Manhattan tonight and counted 25 prisoners, including one woman, at the end of their day's work.

"TALKING" WOMAN BETTER.

Columbus, O., April 5.—Hope for the recovery of Mrs. William Montgomery, 22, of Logan, "talking sick" victim, under treatment at a sanatorium near here, was expressed tonight by attending physicians.

Mrs. Montgomery was reported to be resting better tonight, having shown no signs of actual violence since entering the sanatorium Wednesday. Although talking almost continuously, it was said her general condition was better and that her temperature was lower.

STRIKE CLONES STEEL MILL.

Phoenicia, Pa., April 5.—A strike of a number of locomotive engineers and trainmen, employed by the Phoenicia Iron company, today caused a shut-down of the steel plant and the burning of four large furnaces. The engineers struck for a wage increase of 25 cents an hour and the trainmen for 75 cents more.

MAY SEARCH BELGIONS

Corning, N. Y., April 5.—Right to search homes of any other public places where federal officers have reason to believe the prohibition law is being violated, without search warrants, was upheld today by Judge Cushman in the United States court here.

DID CARNAVON DIE BY SPIRITS

Conan Doyle, Exponent of Spiritualism, Asserts This Is by No Means Unreasonable Theory

MANY SCOFF IDEA

Egyptologists Say All Explorers in Valley Would Have Died Years Ago If Theory Efficacious

New York, April 5.—Did avenging spirits cause the death of Lord Carnarvon for disturbing the tomb of Tutankhamen?

Sir Arthur Conan Doyle, exponent of spiritualism, asserted today that this was by no means an unreasonable theory—a theory which discharges from Cairo assert is held by native Egyptians.

With Mark Twain, the English novelist, Sir Arthur said that the priests of old Egypt knew much more of the occult than we and that they might have placed a spiritual "elemental" in the tomb to strike down the man who disturbed the bones of their pharaoh.

But Egyptologists and scientists read "insect bite," and nothing more, and Sir Arthur himself was forced to admit that by now "old King Tut's spirit may be far enough along not to care to punish when happens to his bones."

Among the scoffers was a member of the department of Egyptology at the Metropolitan Museum of Art. He declared that if the threats of the pharaohs efficacious, all the scientists who had worked in the Valley of the Kings would have been dead years ago.

Mrs. Caroline Williams of the New York Historical society, former assistant curator of Egyptology at the Metropolitan, was among those who scouted the ancient superstition.

Mrs. Williams cited a case in 1905 when Howard Carter, then inspector in Northern Egypt, directed the removal of the mummy of Amunhotep, the second, from the museum to its tomb in deference to the popular wish that the mummy be left where it was buried. Afterwards, however, she robbed the tomb, took the body to pieces in their search for valuables which did not exist.

The guilty men were found, but could not be convicted in an Egyptian court.

It was also pointed out that Carnarvon, himself, had expressed the desire to have the mummy of Tutankhamen remain in the tomb.

14 MEN RECEIVE BELATED JUSTICE

Jail Sentences at Hard Labor Given Persons Who Gouged to Keep Fish Price Up

Boston, April 5.—Fourteen men found guilty four years ago of conspiring to keep the price of fish at high levels in war time were sentenced to jail at hard labor today and tonight were behind the bars.

F. Monroe Dyer, of New York and Boston, banker, who was the organizer of the Bay State Fishing company, with four of the leading dealers who were officers of the company, received sentences of 18 months in jail and fines of \$1,000 each. Nine other dealers, members of the company, were sentenced to five months and to pay fines of \$500 each. William F. McKewen, a member of the latter group, was not sentenced today because of poor health. Simon Atwood, Jr., still another member of the group, had been serving a similar sentence at the house of correction at Deer Island since February 17, having abandoned his rights under the motion for appeal and delay.

Atwood will be joined in the island institution tomorrow by his associates who were sentenced today. They spent last night having gone to the island for the day.

TEDDY'S WIDOW BRAVES FIRE TO SAVE PORTRAITS

New York, April 5.—Mrs. Theodore Roosevelt, widow of the ex-president, braved a fire in the "E" Coffee House in 44th street today to aid restoration of her husband's portraits.

Mrs. Roosevelt was the only one of 16 persons in the place who did not flee when fire broke out in a coffee room under the kitchen. Flinging the restaurant with smoke.

Calmly holding her place, she directed the manager, Frank Ford, and other employees to bring canvases to place over the pictures, which were featured in the restaurant, so that the firemen would not injure them when they turned their hose lines on the fire.

The fire was extinguished without damaging the portraits and caused little damage to the kitchen, in which it was confined. Kismet Roosevelt, a son, is a part owner of the establishment.

PEWEE KIPPY DROWN

New York, April 5.—Final settlements of the "when issued" contracts in the various issues of the New York, Kansas and Texas railway company, were made today by the New York stock exchange with the delivery of the definite certificates. Today settlement concluded the longest period of record of trading in "when issued" securities and deferred settlements.

EASTERN BUSINESS CONDITIONS NORMAL

Central and Western Parts of Country Making Rapid Strides, Say Officials

MANY SCOFF IDEA

Egyptologists Say All Explorers in Valley Would Have Died Years Ago If Theory Efficacious

Washington, April 5.—Business conditions were made in two official quarters today that general business conditions throughout the east were normal and normal. The central and western part of the United States were said, at the same time, to be making rapid strides towards recovery.

Secretary Mellon asserted, returning from his first vacation since he became head of the treasury, that the industrial and financial situation in the east appeared very satisfactory, the trip included visits to several important centers and in all of these he reported he found renewed evidence of recovery and optimism concerning the future.

The federal reserve board declared in its official monthly bulletin issued today, that continued active business conditions in every section were shown by the maintenance of a high rate of industrial production. Along with this, the bulletin said, there had been increases in freight traffic and employment and a larger volume of wholesale and retail sales.

The bulletin also called attention to the unusually low number of commercial failures reported in February, which, according to its figures, was the smallest since Sept., 1920.

APPROVES ROLLING STOCK PURCHASES

Billion and Half for Equipment of Railroads in Preparation for Record Season

New York, April 5.—The American Railway association today approved the expenditure by its members of \$1,640,000,000 for equipment, the biggest aggregate railroad budget ever recorded, then issued a nationwide appeal for co-operation in helping the roads through the heaviest transportation era in history.

Based estimates on the unprecedented tonnage hauled in recent months, the association's reports forecast the smashing of all records in 1923 with at least 18 weeks when car loadings will exceed 1,000,000 a week and an estimated high mark of 1,000,000 cars per week in the week of Oct. 28, at the height of the fall crop movement.

Realizing that, with existing facilities, they were unprepared for such a year, the railroads contracted for \$440,000,000 worth of new supplies in 1922 and \$1,100,000,000 more for 1923. They also have speeded up shop repair, reconstruction and maintenance of way department to the point where they promise by fall to reduce the transportation of railroad coal and supplies to the minimum and to have a high percentage of rolling stock available for their customers.

Public assistance to help early shipping and storing of all freight, including coal, ore and construction materials, that usually interfere with the fall movement of crops, was asked by the conference.

FRANCE WILLING TO SCRAP NAVAL FIGHTING DEVICES

(By the Associated Press.)

Paris, April 5.—The president of the naval committee of the French senate, Gustave de Kerguelen, in a statement to the Associated Press today advocated the summing up of a further naval armament conference which would have for its object the scrapping of all the big navies of the world.

"I guarantee in the name of the French parliament," he declared, "that France will support her entire fleet if the other powers will do likewise."

M. de Kerguelen, probably the best informed man on naval affairs in either house of parliament, was for six years preceding 1921, member of the chamber of deputies and served on the committee during the naval budget.

When it came to a vote on the Washington treaty which will make an honest revision of naval armaments, he said, "What I would propose is a new conference for scrapping the big navies. If the world does not look out it will destroy itself totally in a few years."

BELGIAN SLAY PEASANTS.

Brussels, April 5.—Belgian soldiers in the Ukraine between Polish troops and peasants are reported in dispatches received here via London. The Belgians are reported to have executed 24 peasants, apparently because of protests against the Soviet persecution of high church dignitaries.

Anti-Jewish pogroms also are reported from the Ukraine, and numerous Jewish families are said to be fleeing toward the Polish frontier.

RELIGIOUS WEDDING PARTY

Washington, April 5.—Wedding parties in the edition of the District of Columbia police commissioner, should not be held in the decoration standards of street traffic regulations. The commissioner yesterday ordered the release in time to catch their train of Edward Dean and his bride, after they had fallen into the clutches of an unscrupulous traffic policeman, who took exception to the tin sign and excessive horn-blowing.

TITLES CONDITION SALE

St. Louis, April 5.—The condition of Bishop Daniel J. Leahy of the Episcopal church who is currently ill of grip was reported tonight.

DEADLOCK IN FOSTER JURY

All of 38 Ballots Taken Stand 6 to 6, With No One Changing Vote on Any of Them

OUT OVER 31 HOURS

Defendant Accepts Disagreement as Victory; Woman Strong for Acquittal

(By the Associated Press.)

St. Joseph, Mo., April 5.—Hopelessly deadlocked after 31 hours, 15 minutes deliberation, the jury trying William Z. Foster, of Chicago, for alleged violation of the Michigan law against removal of soldiers, was discharged by Judge Charles White this evening.

The jurors stood 6-6 on all of their ballots without changing a vote.

Five men and one woman voted for Foster's acquittal and six men for his conviction.

Foster was the first to face trial of the 24 men and women arrested as a result of the raid on the convention of the Communist party of America held in the lonely dunes country near here last August. Charles E. Ruthenberg, one of his co-defendants, will be placed on trial a week from next Monday.

The court room was almost deserted when Judge White called the jury in and asked the foreman, Calvin Bachman, if there was any chance of reaching a verdict.

"I am afraid not," Bachman said. "We have not changed since the first ballot."

Gail Foster and his wife and attorneys were seated at the lawyer's table.

At the court discharged the jurors, some of those who voted for acquittal explained the reason for the hopeless deadlock.

Convinced from Start.

"We six were convinced from the start that the state had failed to make a case against Foster," Russell Burns, a grocer's clerk, explained. "We did not feel that the evidence showed Foster had committed any crime in attending the convention, and we so voted."

Mrs. Minerva Olson, only woman on the jury and one of the leaders in the group favoring acquittal, spoke as to reasons for her own acquittal vote. "The other four who voted for Foster were under the influence of H. M. Munier, Theodore Katschke and A. M. Hickey, all farmers."

The six favoring conviction were Calvin Bachman, the foreman; Arthur Barker, A. J. Jackson, Virgil G. Lyles and Dwight Holcomb, all farmers; and Theodore Drier, a crossing watchman.

Foster accepted the jury's failure to agree as a victory.

"It is remarkable," he told newspapermen, "that six people who are naturally prejudiced against revolutionists talked about here for days, could keep their convictions that a case had not been made and hold out for two days for their conviction."

Whether the case will be retried probably will not be decided until after the September trial, which starts April 16.

HERRIN DEFENSE RESTS ITS CASE

Testimony Shows Two Prosecution Witnesses in Jail at Time of Riot at Mine

March 10, April 5.—The defense in the second Herrin riot trial rested its case today after having called nearly a hundred witnesses. The six defendants are charged with the murder of 27 persons, including 18 women, at the outbreak. Final arguments begin tomorrow.

The defense today directed efforts towards establishing an alibi for Hugh Willis, state executive board member of the United Mine Workers and one of the defendants. Testimony also was introduced to show that Robert Tracy and Gus Lawrence, witnesses for the prosecution, were in jail at the time when they claimed they had seen the tragedy take place.

Tracy and Lawrence testified that they were working at the mine of the Southern Illinois company and described how the 15 workers and guards in the mine were marched out by an armed crowd after they had surrendered.

John Kynan, deputy sheriff of Williamson county, said today that he had seen both Lawrence and Tracy in the Herrin jail at about 11:30 o'clock the morning of the slayings. Jake Jones, a former policeman, testified that the two had been brought to the jail at about 7:30 o'clock the night before. Three other men, whom he could not identify, who said they wanted the two locked up or safe keeping.

He said he locked them up as they requested, gave them breakfast the next morning, and at noon before they were sent out of town. He said they were completely out of their minds.

Robert Chase, a former Herrin coal miner, testified that he had seen both Lawrence and Tracy in the jail between 7 and 11 o'clock the morning of the slayings and also when they left about noon, after having been told to get out of town.

American Horse Wins British Classic for First Time

Sergeant Murphy, 12-year-old horse owned by Stephen Sanford, son of John Sanford, one of America's leading horsemen, going over a jump in the British Grand National. That race is the most famous of all horse races, the horse having won it in a time of 10:00. Sergeant Murphy is the first American-owned horse ever to win the classic. He paid his backers 100 to 1.

COLLEGE BASEBALL

At Villa Nova, Pa.—Holy Cross-Nova Nova called in fifth inning on account of rain, Holy Cross leading, 6-0. No game.

At Athens, Ga.—University of Georgia-Dartmouth 4 (10 innings).

"ROBBED," SAYS RICH

Trips on Ocean One Weight Down: Knocks Out Diner.

Paris, April 5.—"I was robbed," said a man yesterday, "when I was returning today to the fight in Dublin in which he lost his heavy-weight championship to Mike McTigue."

"I will never go to Ireland again," the black man continued, "unless I can cross by way of England. I lost so much weight during the ocean trip to Ireland and back that I am now a middleweight."

McTigue knocked out a diner in one of the best known Paris restaurants early this morning during a brawl.

To Reduce Dangerous Varicose Veins

Strong, Powerful Yet Safe Surgeon Prescribes Cured Varicose Veins and Old Man Attended Physician

People who have swollen veins or hemorrhoids should not wait until they reach the bursting point, which means much suffering and loss of time, but should at once secure from my reliable druggist a two-ounce original bottle of Moore's Hemorrhoid Oil (full strength).

By using this powerful yet harmless medicine treatment improvement is noticed in a few days and by its regular use swollen veins will return to their normal size and hemorrhoids will cease to worry. Moore's Hemorrhoid Oil treatment is used by physicians and in hospital and is guaranteed to remove hemorrhoids or return to normal.

It reduces all kinds of enlarged glands, swollen lymphatic glands, and is especially useful in the treatment of the prostate gland. It can be used in the treatment of the prostate gland. It can be used in the treatment of the prostate gland.

HOW TO ATTRACT BIRDS TO HOMES

Feathered Friends Drawn by Proper Shelter and Food.

LOCATION OF NEST HOUSES

Birds appear strongly to the human eye and affection of mankind. Not only do they charm by their graceful forms, harmonious voices, sprightly actions and usually pleasing notes, but they have an even more important claim upon our esteem because of their great economic value. Birds feed upon practically all insect pests. They are voracious, able to move freely from place to place, and exert a steady influence in keeping down the swelling tide of insect life.

"The means of increasing the number of birds about the home are few and simple," says W. L. McAtee in a bulletin of the United States Department of Agriculture on how to attract them. "They comprise adequate protection and the provision of suitable nesting places, food and water. It is planned in a series of publications to recommend practicable methods of attracting birds about homes in the various parts of the United States. Protection is the prime requisite for increasing the number of birds in any area, and the results of protection are in direct proportion to its thoroughness."

"Although a considerable number of our native birds build their nests on the ground, the majority place them in trees or shrubs, either in holes or on the limbs or in the crotches. Shrubs and trees for nesting sites, therefore, are essential for making a place attractive to birds, and a double purpose is served if the kinds planted are chosen from the list of fruit-bearing species given further on. Shrubs should be allowed to form thickets and should be pruned back severely when young, so as to produce numerous crotches."

Natural Bird Houses Going.

"Constant removal of old trees and modern tree-surgery have resulted in a great diminution in the number of tree cavities, the natural homes of most of our hole-nesting birds. Fortunately, most of these birds will utilize artificial nest cavities, or bird houses."

"As a rule, birds do not like to be crowded, and if a place is studded with bird houses only a few of them will be occupied. Birds not only do not want bird neighbors too near, but are impatient of human meddling and therefore should be granted as much privacy as possible during the actual incubating and brooding."

"Nothing has a more potent attraction for birds than a place where they can drink and bathe. The bird water supply should be a pool not more than a few inches deep, the bottom sloping gradually upward toward the edge. Both bottom and edge should be rough, so as to afford a safe footing. A giant pottery saucer is an excellent device, or the pool may be made of concrete, or even metal. If the surface be roughened, the bird bath may be elevated or on the ground if in an open space where skulking enemies cannot approach too near. A water supply is appreciated in winter as well as in summer. If running water cannot be provided, that supplied should be warmed to delay freezing."

Supplying Plenty of Food.

"Food supply is a vital factor in bird life and the most important single offering that can be made in efforts to attract birds. It is important to note that an ample supply of food prior to and during the nesting season tends to increase the number of eggs laid and also the number of broods in a season. Bird food may be supplied in two ways—by planting trees, shrubs and herbs which produce seeds or fruits relished by birds, and by exposing food in artificial devices. The most familiar phase of the latter method is winter feeding."

"During the season when the natural food supply is at its lowest ebb, birds respond most readily to our hospitality. Winter feeding has become very popular, and the result has been to bring about better understanding between birds and mankind. The winter foods commonly used include meat or other fat, pork rinds, bones with pieces of meat, local worms, cut-up apples, breaded, buckwheat, crackers, crumbs, coconut meat, cracked corn, broken dog biscuits or other bread, hemp seed, millet, and meats of all kinds (especially peanuts), whole or rolled oats, popcorn, popcorn, pumpkin or squash seeds, raw or boiled rice, sunflower seeds and wheat."

VELS MASK SHY EYES

Fashion Leaders Shun Face Covering.

Vells, which came back some time ago as a sort of softening decoration around the edge of women's hats and lately began to stream slightly in the breeze to the rear, as they did many years ago, now are creeping down a few inches below the front edge of hats so as to mask shy eyes.

Some of the Paris fashion leaders suggest that vells may be worn to cover the face entirely, as was the custom a generation back, when a well-dressed woman would as soon have thought of going in the street bareheaded as barefaced.

Thought for the Day.

You are not ready to shut the day's work until you have worked your face into a smile.

Dear but Effective Teachers.

Some of our students teach us such valuable lessons that they are well worth what they cost.

LEADS POLICE MOVIE CHASE

Lover of Costly Perfume Caught After Robbing Drug Store and Agree to Pay.

South Bend, Ind.—Allen Collins, 34-year-old, was caught after robbing a drug store and agreeing to pay for the perfume he had stolen. Collins was caught after a chase that lasted for several hours. He was caught after a chase that lasted for several hours. He was caught after a chase that lasted for several hours.

Table Coin From Boy's Threat.

Ashtabula, Wis.—Vernon Justice, four-year-old son of Mr. and Mrs. John Justice, was operated upon for the removal of a silver quarter, which he had swallowed. The silver piece was lodged in the tube leading to the stomach and a fluoroscope was necessary to find it.

Depth in Clarity.

Clear writers, like clear fountains, do not seem so deep as they are; the turbid look the most profound.—Lander.

Knowledge.

It's not what you know, but what you do with what you know, that makes what you know worth anything.—Exchange.

The Exception.

"No man ever loved a woman while he was busy," remarks an exchange. But suppose he was busy making love?—Boston Transcript.

CAMPBELL-SIMMONS

Maryland Girl, Born in Otsego, Married Robert Mann; Will Reside in Binghamton—Truth Seekers Elect.

On Thursday morning at the Baptist parsonage occurred the marriage of Miss Hilda May Simmons of Maryland to Arthur H. Campbell of Binghamton. Rev. G. C. Scooby was the officiating clergyman. The couple were attended by Miss Mildred Simmons, sister of the bride, and William M. Eckert. The bride is the daughter of Mr. and Mrs. John Simmons and was born in Otsego. The groom was born in Roxbury and is the son of Lucinda Osborne and Richard W. Campbell. The couple will reside in Binghamton.

A singular incident in connection with this ceremony is the fact that Rev. G. C. Scooby was pastor of the church attended by the Oida family thirty-five years ago when the bride's mother was a very young girl.

Truth Seekers Elect.

The following officers were elected Wednesday evening at a meeting of the Truth Seekers held with Mrs. L. A. Duran at the Methodist Episcopal parsonage: President, Mrs. Grover

Chase; vice president, Mrs. Floyd Mann; secretary, Mrs. Robert Barnes; treasurer, Miss Mabel C. VanHoesen. The organization is in a flourishing condition, active in both social and philanthropic work. The present membership is twenty-six. At the conclusion of the business session a social hour was enjoyed. A delectable supper was served by the following committee: Mrs. Margaret Cooper, Mrs. Harriet Seedecker, Mrs. John T. Bennett and Miss Mabel VanHoesen.

Sunday Services.

On Sunday morning at the Baptist church Rev. R. C. Scooby will deliver the second sermon on "What is Christianity: The Abolition of Death." Special singing by the boys and girls and the usual church talk will be given. Topic for the evening service, "Altogether, a Way or a Termination."

St. Mary's Roman Catholic service at 9:30 a. m.

Deaths Exceed Births.

The registrar of vital statistics reports for the month of March, one birth and four deaths in the incorporated village of Schenectady, and two births and six deaths for the town of Maryland.

Town Board Meets.

The town board of the town of Maryland met at the offices of the supervisor, E. R. Campbell, Thursday forenoon. An agreement was made with the town superintendent for the coming year. The board inspected the bridge on the Elk Creek road near the Charles Irons farm, where a new bridge must be built in the near future. County Superintendent of Highways Victor L. Hoke was in attendance.

Schenectady Relief Notes.

The village president, T. B. Lipincott, has been ill for a few days with grip. A portion of the old Tannery property was blown down Wednesday night and Road Superintendent Henry West with a gang of men, was busy Thursday removing the obstruction from the highway on Tannery street. Living Bulson has moved his household goods from the Mrs. Emma Hall tenant house to his daughter's home in Westford. Mr. Bulson has spent the winter months

To Peter H. Norberg: The foregoing summons is served upon you by publication pursuant to an order of Hon. Abraham L. Kellerg, Justice of the Supreme Court, dated the 26th day of February, 1923, and filed with the complaint in the office of the clerk of the county of Otsego, at Cooperstown, N. Y.

Charles H. Merriam, Plaintiff's Attorney, Office and P. O. Address, Milford, N. Y.

in Westford.—A Delco Lighting system is being installed in the George L. Bennett home on lower Main street.

COOPERSTOWN NEWS NOTES

Mrs. Edward Webster Passes Away Following Short Illness.

Cooperstown, April 5.—Mrs. Katharine Hamilton Webster, wife of Edward Webster, died early Wednesday morning at her home here. She had been ill but a few days. She was born November 1, 1859, at Cherry Valley. Her parents were Westol J. and Anne H. Hamilton. She was the only daughter of six children. About 40 years ago she was married to Edward Webster and since that time has resided in Cooperstown. She is survived by her husband; one daughter, Mrs. George H. Morris, Jr.; three grandchildren, Robert, Emily and Harold Morris; and five brothers, George Hamilton and Wells Hamilton of Cherry Valley, William Hamilton of New Haven, Walter Hamilton of New York city and Philip Sheridan Hamilton of Jersey City. The funeral will be held at 2 o'clock Friday afternoon at her late home. The services will be conducted by Rev. Truman F. Hall, D. D. Burial in Fly Creek.

Extremed Resident Suffers Shock.

Waterman Willis, one of the most highly respected residents of this village, suffered a shock last evening at his home on Main street. He was taken to the Mary Imogene Bassett hospital where he is in a critical condition.

Birth Notice.

Mr. and Mrs. Frederick Munger, Jr., of Castleton are parents of a daughter born Tuesday. The mother will be remembered as Miss Leila Wells, who for several years was County Treasurer Johnson's assistant.

Nurses' Alumni Reception.

Tuesday evening the graduates of the training school for nurses connected with the Thanksgiving hospital held their annual alumni reception and dance in the Knox school gymnasium. The affair was attended by about a hundred persons.

Large Dinner Party.

Wednesday evening at the New Fenimore Dr. and Mrs. Floyd J. Atwell and Mrs. and Mrs. Orange L. VanHorne entertained 150 guests at a dinner bridge party.

WORCESTER

Worcester, April 5.—Professor Samuel Vaughn, wife and daughter of Schenectady were guests of Mrs. Mary Herrick Wednesday. Phillip Crippen of Onondaga spent Tuesday with his grandmother, Mrs. Caroline Crippen. — Gordon Root returned to his duties

at Syracuse university Wednesday.—Mr. and Mrs. A. E. Hamilton and son, Norman, left this morning for Yorkton where they will visit friends for the next ten days. — Mrs. Harry Maylow and son, Harry, Jr., are spending the day in Albany. — Miss Elsie Lincoln, a teacher in the public schools of Endicott, is spending her Easter vacation with her mother, Mrs. Joseph Lincoln. — Mrs. George VanWagoner of Onondaga is the guest of her sister, Mrs. W. H. French. — Mrs. Marjorie Wade, who has been visiting her sister, Mrs. LeRoy Goodell, returned yesterday to her home in South Worcester. — Mrs. Webster Chase and daughter, Betty, who have been spending the winter in the home of their father, C. E. Bell, will return to their home at Herkimer on Friday. — Miss Edith Best, a teacher in the public schools of New Jersey, is the guest of her mother, Mrs. Sarah Best. — Miss Elizabeth Wright of Brooklyn is visiting her parents, Mr. and Mrs. William Wright. — Arthur Silvernail of Endicott is spending his Easter vacation with Mrs. Sarah Best. — Mrs. John Leverett of Yonkers is the guest of her parents, Mr. and Mrs. Charles Wilcox. — Mr. and Mrs. Horace Getman and daughter, Mary Frances, of Stamford are guests of Mrs. C. W. Mead's parents, Mr. and Mrs. E. L. Mead. — Born, Wednesday, April 4, to Mr. and Mrs. Nelson Winnie, a 7½ pound boy, Douglas J. — Clifford Bailey and wife have moved from their farm on West hill to rooms over the Worcester bryery.

TEACHERS IN WESTFORD

All Positions Filled Except That of Principal for Coming Year.

Westford, April 5.—The Misses Zhee and Lightfoot have been engaged to teach here another year. Miss Baker of Worcester has been engaged for the primary room and Miss Susan T. Sax of Schenectady for 4th, 5th and 6th grades. A principal has not yet been secured. Prof. Rely has been hired as principal of the Maryland school. Miss VanDeusen will also teach there next year.

Leaves for Baltimore.

John Leon Utter has so far recovered from his accident as to leave the hospital at Onondaga. After a brief visit to his parents here, he left for Baltimore where he will be under the care of Dr. Babcock and will have employment with him. His hand, while not healed, is regaining its normal condition.

Westford Briefs.

Leon Roberts and family moved Wednesday and Thursday to their new home in Schenectady. — Mrs. Minnie Backus spent Monday and Tuesday in Schenectady.

For Colds, Catarrh or Grip

DO YOU feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong! An old, reliable blood-maker and herbal tonic in Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alternative and tonic is cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stony root, all skillfully combined in the "Discovery." These herbal extracts in the "Discovery" aid in making redder blood. By improving the blood they help to throw off an attack of grip.

Catarrh should be treated by improving the general condition with this alternative. And, in addition, the nose should be washed daily with Dr. Pierce's Catarrh Remedy. Send 10c for trial pkg. Catarrh Tablets to Dr. Pierce, Buffalo, N. Y., and write for free advice.

generation in western Kansas to save "money for a rainy day," because they can't be convinced that it will ever rain again in western Kansas.—[Kinsley (Kan.) Graphic.]

John Galesworthy in "Virtue." "He felt the glance of the policeman run over him like a chilly insect." From a story: "The door opened and a girl entered—such a girl! Her smiling glance woke up the cat and set Miss Betty's nerves tingling."—[Boston Transcript.]

Sugar Season Is Poor.

The maple products industry is dull this spring according to reports from reliable farmers of Schoharie county. There seem to be several reasons for this, the serious ice storms of last year injured many "sugar bushes," the scarcity of help and the very meagre profits in selling maple syrup and sugar deter many farmers from tapping. Those who buy maple products will be especially hungry this year if the offerings are as few as they promise to be.—[Jefferson Standard.]

Studebaker Burns at Andes.

On Monday afternoon the five-passenger Studebaker car of Clyde Bloodgood of Andes jumped the bank and was overturned owing to failure of the steering gear. Mr. Bloodgood jumped and escaped without injury, but the car burst into flames and in a short time nothing remained but the wreckage. Fortunately the car was insured.

DEWITT VANLOAN DEAD.

North Kortright Resident Passes Away—Funeral of Mrs. Scott.

North Kortright, April 5.—Dewitt VanLoan, 61, a man of all work, who for a year or two had resided at West Harpersfield, died of pneumonia Wednesday afternoon after an illness of about a week. He was a neighbor of Mr. and Mrs. Newton Riddle and had assisted in caring for the aged couple

during their last sickness until himself prostrated by an attack of grip. He was an obliging man of kindly nature and will be missed in the community, especially by his wife and three children, the youngest only a few months old. The funeral will be held at 10 o'clock, Rev. R. B. Irwin will officiate and burial will be in the North Kortright cemetery.

Funeral of Mrs. Eleanor Scott.

Funeral services for the late Mrs. Eleanor Scott were held at the North Kortright United Presbyterian church yesterday at 2 p. m. Her pastor, Rev. R. B. Irwin, officiated, and interment was made in the family plot in the cemetery here. In life Mrs. Scott was passionately fond of flowers and generously donated them for church services or wherever they were wanted, and kind friends lovingly provided beautiful offerings for her casket, tenderly placing one of the blossoms in her hand. Mrs. Anna McKeeby and the Misses Ida and Fanny Rowland, half-sisters, also Homer Ewing of Albany, a niece of the deceased were present at the funeral.

DAVENPORT MAN INJURED

H. C. Fisher Struck by Pennsylvania Car—Two Ribs Broken.

Davenport, April 5.—H. C. Fisher, living in the lower part of the village, had the misfortune to be struck by a passing auto on Wednesday evening, receiving two broken ribs and some other bruises. It appears that a car was standing just in front of his house, and as Mr. Fisher stepped upon the street a car from Onondaga swung out to the middle of the highway to avoid the parked car. At the same time a Pennsylvania car which came down the road and swung well off the macadam to avoid hitting the east-bound car, struck Mr. Fisher, whom the driver of that machine had not seen.

The Pennsylvania man at once stopped, came to Onondaga and called Dr. Hendrick, and this morning returned armed to see Mr. Fisher, giving assurance before departing that he would pay all damages. The condition of Mr. Fisher, who is about 51 years of age, is very favorable considering his advanced age.

Another Auto Accident.

The automobile of Charles Moore who resides about two miles below this village, got out of control of the driver and tipped over on Wednesday morning. In the car, besides Mr. Moore, were his sister and two others. One child was bruised somewhat but no one seriously hurt.

ROBERT JOTTICES.

Hobart, April 5.—Mrs. C. C. Fleisch of Unadilla was a guest at the home of Miss Elizabeth King Wednesday night and returned to her home Thursday.—Mr. and Mrs. W. H. Sheffield and sons of Ridgewood, N. J., are here to spend a few days at their summer home in Hobart.—Mr. and Mrs. Charles P. Forte, who have spent the winter in Florida, and have been guests of Mr. and Mrs. W. H. Sheffield at Ridgewood, N. J., accompanied them on a motor trip to Hobart, where they will spend some time.—Miss Marie Hyatt of Fairbridge is a guest at the home of Mr. and Mrs. D. A. Haynes.—Eugene Stone of Delhi was a business caller in town Thursday.—Miss Eleanor Pogue returned Thursday from a visit with friends in Delhi.—Mrs. F. W. Willis went to Onondaga today for a visit of several days.—Mr. and Mrs. Richard Hill, and family of Bloomsburg attended the graduation exercises at the Agricultural school in Delhi Wednesday. Their son, Roy Hill, was a member

Ida Kase.

—Today is the sixth anniversary of the entrance of the United States into the World War.

—Men familiar with the making of maple sugar say that there will be very little made this spring, the conditions not being favorable.

—During the month of March 31 births and 23 deaths were recorded in the city clerk's office. Four hunting licenses were recorded during that period.

—J. J. Blackford, referee for the State Industrial commission, will hold a hearing on industrial compensation claims in Municipal hall on April 2, commencing at 9 a. m.

—The Susquehanna river was rising rapidly late yesterday when the rain ceased to fall. It is fortunate that so much of the snow had disappeared before the first warm rains came.

—Cepherley & Morgan sold yesterday two lots in the Ideal Home plot adjacent to Wilber park to Walter M. Goldsmith and one to Miles C. Dales. This makes 13 lots sold out of the 23 in the development.

—About seventy-five couples attended the dance in Municipal hall last evening under the auspices of the W. B. A. O. T. M. Collier's orchestra furnished the music and a very pleasant evening was spent.

—George E. Bates of Albany, industrial agent for the Delaware and Hudson company, gave a very interesting talk on the natural resources of the Adirondacks at the regular luncheon of Oneonta Rotary club held yesterday noon at the Elks' club.

Meetings Today.

There will be a meeting of the Woman's Foreign Missionary society of the First Methodist Episcopal church in the church parlors this afternoon at 2:30. Annual election of officers. A good attendance is desired.

The Woman's Home and Foreign Missionary society of the River Street Baptist church will meet this afternoon at 2:30 o'clock, at the home of Mrs. P. N. Horton, 113 River street. It is requested that all the women of the church who have the mite boxes will either bring or send them filled to this meeting.

Regular meeting of Firemen and Oilers this evening in Trade and Labor hall at 8 o'clock. All members requested to be present.

Regular meeting of the Carmen at 7:30 o'clock tonight, in E. O. R. T. hall. A good attendance is desired.

Regular meeting of the Oneonta Lodge, No. 74, this evening at 7:30, in K. of P. hall. Business of importance. A large attendance is desired.

Meeting Sunday.
Regular meeting of Susquehanna lodge, No. 71, B. of L. F. & E. Sunday afternoon at 2:30. Business of importance. advt 21

Woman's Club.

At the Thursday afternoon tea of the Woman's club yesterday the hostesses were Mrs. George Clute, Mrs. Marvin Hatcher, Mrs. W. B. McClelland and Mrs. Clarence Cepherley.

Miss Ada K. Smith gave a very interesting talk on "Nature." The exhibit of work of the girls' sewing class was meritorious as well as extensive and received much favorable comment. Mrs. Jesse L. Leal is the chairman of the work this year and with her assistants is deserving of much credit.

Three Houses Now For Sale.

These three are ready for a quick sale as owners are leaving the city. We are anxious to sell them at once.
No. 1—Cottage, West End avenue, quick possession, nearly new, modern equipment, heat of repair, and single garage, \$5,200.

We now have pickled codfish 12 1/2 cents a pound; also whole dry codfish. Palmer's grocery. advt 21

PRODUCING BATTERIES

Oneonta Storage Battery Corporation
Business Organization to Increase
Production—Sales Organization Active.

The plant of the Oneonta Storage Battery corporation is now running day and night and about forty complete batteries are produced daily. Because of difficulty in securing materials for some of the lead work this number is far below the capacity of the factory, but within a month it seems certain that the maximum for the present building, 250 daily, will have been reached.

The Kalo Sales corporation of New York city, which has taken over the sales of the product of the concern, has been very active, and has in the past few days released. The streams are not in general choked with ice, and if nothing untoward happens the fishermen may fish, albeit in waters somewhat turbid, on Saturday.

There will probably be little sport for those who insist tomorrow that the fly is the only proper bait to use. This natural favorite food of the trout has not yet made appearance, and until the weather warms up a bit and flies naturally hatch out it is not likely that the wily fish will devote much attention to flies artificial. A fish angler will probably be able to find some if he delves in spots which by the front have been deserted. How many will get—how many worms—will depend on his diligence and good fortune; but some fishermen are already boasting the possession of a lot of 'em.

Recent Buick Sales.

The Oneonta Buick company has delivered to Oliver L. Lull of 266 Chestnut street, book of rules examination for the Delaware and Hudson railroad, a 1923 five passenger, six cylinder Buick touring car with a California top. This is the first six cylinder car of this description to be delivered in the territory and is Mr. Lull's third Buick.

The company delivered through its sub-agent, F. J. Tingley, of Stamford, a five passenger touring sedan to A. G. Hume, a brother of "Buick Bob" Hume of Oneonta. This is Mr. Hume's fifth Buick. Mr. Tingley has also delivered to Ward VanDeusen a seven passenger sedan, Mr. VanDeusen's second Buick. A special delivery four cylinder Buick has also been delivered to Griffin and Son of Stamford.

These sales, all but one of them "repeaters," demonstrate the popularity of the Buick.

Condition of William Crowley.

It was William Crowley instead of John J. Crowley, as stated in yesterday's Star, who was injured near Schenectady recently when he fell from the engine he was firing. The breaking of the safety chain, against which Mr. Crowley was leaning, caused him to fall. The locomotive was moving at a speed of about 25 miles an hour when the accident occurred and it is a matter of wonderment that the man was not more seriously hurt. He is at the Fox Memorial hospital suffering from badly torn ligaments in his shoulder. Although he is suffering considerable pain Mr. Crowley's condition is good and it is not thought that the injury will have any considerable permanent effect.

First Presbyterian Church Elects.

The annual meeting of the First Presbyterian church was held Thursday evening in the Sunday school auditorium. Charles Smith, E. W. Elmore and C. D. Townsend were re-elected trustees for three years; and Arthur Seybolt was elected to fill the vacancy caused by the death of Albert Morris. The annual reports of the various organizations were received and adopted and the affairs of the church were found to be in a flourishing condition.

Births.

Born to Mr. and Mrs. Walter Safford, 17 Kearney street, April 4, a son, Robert Walter.

Born to Mr. and Mrs. Walter McIntyre, an eleven pound daughter, Margaret Lillian, on April 1, at the Foote Maternity hospital.

Born, Tuesday, April 3, to Mr. and Mrs. Sheldon L. Bump, of Guilford Center, a 7 1/2-pound son, who will answer to the name of Sheldon L. Jr. Mrs. Bump will be better remembered as Miss Louise Winnie of Milford. Mother and son are doing nicely.

Real Estate Transfer.

William B. Scott of Stamford has purchased of Wellman & Green the new house recently completed at 496 Main street.

Mr. Scott will move from Stamford next week to his new location. The sale was made by the A. C. Lewis agency.

Queen Esther Playlet Postponed.

Queen Esther playlet announced in last Sunday's bulletin to be given Friday evening in the First Methodist Episcopal church, has been postponed. The date will be announced later.

THE FISHING SEASON.

Embargo on Trout Lake Saturday Morning—Angler's Reaction.

The embargo on fishing for trout, which has been on since last August, will be lifted on Saturday morning, and from that time on until the closing day of August, 1923, anybody who pleases will be entitled to angle for the speckled beauties with due regard of course to the legal size, and weight as heretofore printed.

A few days ago it looked much as if the opening of the season would be delayed, not by the law of the land but by that of nature, which makes casting the fly or even angling with worms in ice-covered streams impossible. Fortunately, however, Old Mother Nature has in the past few days released. The streams are not in general choked with ice, and if nothing untoward happens the fishermen may fish, albeit in waters somewhat turbid, on Saturday.

There will probably be little sport for those who insist tomorrow that the fly is the only proper bait to use. This natural favorite food of the trout has not yet made appearance, and until the weather warms up a bit and flies naturally hatch out it is not likely that the wily fish will devote much attention to flies artificial. A fish angler will probably be able to find some if he delves in spots which by the front have been deserted. How many will get—how many worms—will depend on his diligence and good fortune; but some fishermen are already boasting the possession of a lot of 'em.

CO. C AT SUMMER CAMP

Trout Regiment Will Be at Peekskill From August 26 to September 9—Local Units Preparing for Event.

Company G will be at camp at Peekskill with the other outfits of the Tenth Infantry probably from August 26 to September 9, according to plans now being made by officials of the New York National Guard. Captain Louis M. Baker of the local company is already making preparations for the event and is expecting that his unit will be recruited to full peace-time strength by the time the camp starts.

The men of Company G will be given training at camp in infantry and rifle practice, and the use of hand and rifle grenades and automatic rifles. The latest and improved weapons of all kinds will be used. Instruction will also be given in close and extended order drill, physical exercises, minor tactics and various other subjects which can best be taught in field service.

In preparation for the work on the range at Peekskill, Captain Baker is putting his men through a stiff course of sprouts on the indoor rifle range at the armory. The company has been divided into five sections according to the scores made by the men and a prize will be given to the best shooter in each section. As soon as a man develops a certain degree of skill he is promoted to the next higher division.

Captain Baker will get the men on to the outdoor range just as soon as the condition of the ground will permit. It is possible that a portion of the range may be in such shape that it can be used in about two weeks but it will probably be the first of May before the entire course can be shot. Automatic rifles have been issued to the company and instruction in their use will be given as soon as the men get on the outdoor range.

MEAD STILL MISSING

Unsuccessful Kidnaping Left Business Affairs in Good Shape, Partner States.

The whereabouts of David Mead, who fled from the city Wednesday morning after an unsuccessful attempt to abduct a young stenographer, is still at large, although the police are hopeful that he will be apprehended within the next 24 hours. Chief Frank N. Horton and the girl's father are following a clue that seems promising and it is believed that the man will be located within a short time and returned to Oneonta to answer for his misdeed.

Mead had been planning a trip to Westfield, Mass., his former home, for some time and it is thought that he may have gone there. His partner in the Mead Real Estate agency stated yesterday that Mead had made arrangements some time ago to be absent from the city for two or three weeks. The partner stated that Mead had not taken any of the firm's funds and that the affairs of the concern were in first class shape.

SHORTS FAIL TO UNSETTLE LISTS

Recent Heaviness Gave Way in More Active Market Despite Bearish Action

Brief Market Summary.
Day's total sales, 1,016,000 shares.
Twenty industrials averaged 100.28, net gain, 36.
High, 102.33; low, 96.96.
Twenty railroads averaged 98.08, net loss, 22.
High, 102.33; low, 96.96.

New York, April 5.—Stock prices made further recovery from their recent heaviness in today's more active market despite another attempt by short interests to unsettle the lists by attacking the railroad shares.
Publication of additional favorable earnings reports by large industrial companies, easier money rates and the circulation through the financial district of an optimistic forecast of business conditions by Secretary of the Treasury Mellon, all contributed to the more cheerful sentiment of professional investors, but the lagardness of U. S. Steel common and the continued heaviness of Union Pacific induced a cautious attitude on the part of the outside public.
Equipment shares were heavily bought on reports that railroad executives meeting here had planned heavy purchases of rolling stock in the next few months. Baldwin and American Locomotives each advanced one and three-fourths points and General Electric two and one-eighth. Air Reduction also was pushed by nearly three points.
Sales of more than 500,000 bags of raw sugar at 6 1/2 cents a pound revived speculative interest in the sugar group. Punta Alegre, South Porto Rican and Manatí jumping more than three points each while Cuba Cane preferred advanced two and three-fourths and Cuban American and American one and three-fourths each.
Some of the independent steel shares made a good response to reports of record-breaking pig iron production last month. Gulf States leading the list with a gain of two and one-quarter points. Republic and Republic each advanced one point and one-half. United States Steel one and one-half higher at 106 1/2, but the Bethlehem issues were slightly reactionary.
The renewed attack on rails was rather surprising in view of the unprecedented March traffic returns, extreme losses of one to nearly two points being registered on the break by St. Paul preferred, Great Northern preferred, Baltimore and Ohio, Northern Pacific, Southern Pacific, Union Pacific and Chicago and Northwest, but all made partial recovery before the close.
Virginia-Carolina Chemical issues reacted another half a point back when sent them to new low figures for the year, the common showing a net loss of one and one-half points and the preferred eight points. American Can, American Waterworks and the Market Street Railway issues were among the conspicuous strong spots.
Marked strength of sugar companies, the Punta Alegre's rising five points and marked improvement in the active United States government issues were the features of today's exchange. Foreign bonds also displayed considerable firmness. Railroad mortgages and industrials were irregular. Eastern Cuba Sugar 7 1/2 followed the Punta Alegre 7 1/2, with a gain of one and one-quarter points, but the Cuba American Sugar 5 1/2 behind, closing down fractionally. Freight, made the only gain among the steel mortgages. Cerro de Pasco 5 1/2 and Wickwire Spencer's each losing one and one-quarter points, other losses in the industrial group included Union Oil of California 6 1/2, one and one-quarter, and Myers 5 1/2, one and one-quarter.
Changes among the railroad mortgages were small and unimportant for the most part. Hudson and Manhattan refunding 4 1/2 gaining one and one-quarter and the Illinois Central refunding 4 1/2 being off a point. Transients in supply. Brooklyn Rapid Transit 7 1/2 losing one point.

You Have Read About Others. What Can Compare With

Overland

SEE IT AT OUR SHOW ROOM
139 MAIN STREET COOPERSTOWN
25 MARKET STREET ONEONTA

Ask Any Salesman or Dealer to Answer These Questions

- Q. Will you agree to submit the springs of the car you are selling to a competitive tensile strength test with Overland?
A. Overland springs have 25 per cent greater tensile strength than those of most competitive cars.
- Q. Will you allow me to drive your car over the roughest streets at the same speed as I do the Overland?
A. Overland has a long spring base but long spring base, thus insuring easy riding at all speeds and road conditions, yet with short turning radius for city driving.
- Q. Why don't you use Triplex spring construction, which permits your car to have short wheel base but long spring base, thus insuring easy riding at all speeds and road conditions, yet with short turning radius for city driving?
A. Overland has a long spring base but long spring base, thus insuring easy riding at all speeds and road conditions, yet with short turning radius for city driving.
- Q. Will you agree to furnish all labor and materials necessary to maintain my car for one year at a cost of 10c a day?
A. Overland does. If valves need grinding, if bearings need taking up, or in fact any other mechanical operation on the car, we will do it for during the year without additional expense, under the 10 cents per day plan.
- Q. When a car does need repairing, can you offer the same careful, rapid, efficient service Overland does?
A. Overland does.
- Q. Can you quote a definite price on a certain repair job before the work is done?
A. Overland does.
- Q. Is your car mechanically accessible and easily serviced?
A. Overland is enclosed and is built as a unit with the motor.
- Q. Is your clutch enclosed of improved plate type or is it open and exposed to the elements?
A. Overland is enclosed and is built as a unit with the motor.
- Q. Are your push rods enclosed in an oil tight case?
A. Overland push rods are, eliminating dirt.
- Q. What is the diameter of your axle shafts? Do they carry Timken and New Departure bearings, and are the axles removable without disassembling the rear axle housing?
A. Overland axle shafts are 1 1/2 inches in diameter—carry both Timken and New Departure ball bearings to care for all strains—and are removable without disassembling the entire rear construction (a costly operation).
- Q. Has your car ball bearings or genuine Timkens in the front wheels?
A. Overland has four genuine Timken bearings in the front wheels.
- Q. Is your car equipped with standard make, guaranteed fabric or moulded tire? (There is a difference in values of \$8.00 per car.)
A. Overland carries Fisk and Federal tires, 30x3 1/2, guaranteed tread 10 per cent over standard size.
- Q. How do you figure an owner's investment?
A. Here it is straight. The real price is the list price plus the service expense, plus depreciation when the car is placed on the market for re-sale. There is no guess about Overland service costs and a comparison will prove that there is less depreciation in Overland.

10¢ = a day

for one year's up-keep

We will keep any new Overland passenger car bought during the months of APRIL and MAY in proper running condition, including labor and parts (excepting only tires, batteries, electrical equipment and speedometers, which are guaranteed by their manufacturers and damage from wrecks or collisions) for an entire year at a cost of only 10c a day.

What other car in the world equals the economy of the Overland?

What other car has ever sold under such an unlimited guarantee?

However the plan is optional—many owners report maintenance costs far below this figure.

Courtesy Means an Act of Kindness and Civility

Have you noticed our Overland Courtesy Service car? Our courtesy car driver, who is an expert mechanic, is instructed to lend a helping hand to any motorists in trouble, regardless of what car he drives and without cost to him. Why don't competitors offer a similar service?

To Automobile Salesmen, Dealers

Automobile buyers in 1923 do not want fancy sales talk; they want facts and all dealers and salesmen know it. Only Overland can answer and make good on the questions asked.

All commodities are sold by comparison and cannot be intelligently merchandised in any other way. All advertising uses comparison as its theme. A silk merchant compares two fabrics to effect a sale—a furrier compares two pelts—a jeweler a number of diamonds, etc.—a life insurance salesman compares the policies and relative benefits of competitive companies. Why shouldn't you buy your automobile on a basis of fair comparison?

Do you believe in life insurance? If you do, and everyone does, then why shouldn't you believe in cost of upkeep insurance?

Kaiser's Summer Palace Now Home For War Orphans

At Corfu, Greece, a thousand orphaned Armenian boys are living in the former summer palace of ex-Kaiser Wilhelm of Germany, now Charles V. Victory of Near East Relief. The picture shows the palace, Mr. Vickrey and a group of the refugees.

POETIC justice of a sort seldom met with outside story books has suddenly made its appearance on the island of Corfu, according to Charles V. Vickrey of the Near East Relief, who has just returned from an inspection of the refugee centers in Greece. At Corfu Mr. Vickrey saw a thousand orphan boys, Armenians to whom Greece has given shelter, living frugally in a palace bearing every mark of royal splendor. It was the former summer palace of the German Kaiser, one of the finest and most beautifully equipped residences in the whole world.

"Observe the way in which Fate has operated," said Mr. Vickrey. "Nine years ago the Kaiser figured as War Lord of the world. The war left these thousand boys orphans because their parents and all known relatives were massacred or died of famine as a result of persecution by his allies the Turks. Today the Kaiser has lost his Empire and his throne; he lives in obscurity in Holland while the children whose parents he helped to send to their deaths are safe and happy in his palace at Corfu."

The former Emperor was recently reported to be contemplating a move to his Corfu palace where he thought his wife, the Princess Hermine, would be more comfortable than in Holland. For the Kaiser, it is said, is expecting a new addition to his family shortly. However, there is no room for any

more children at Corfu, even children of a former Emperor. The palace is only one of many buildings, freely loaned by the Greek government to the Near East Relief, to shelter some of the orphaned boys and girls from the disaster of Asia Minor by the relief organization. Since the Assyrian disaster nearly twenty thousand children have been moved from Turkish territory to Greece.

"There are another 1,000 Armenian boys at Corfu," said Mr. Vickrey, "housed in an old, abandoned warehouse. Most of them sleep on the floor, but some, more fortunate, occupy bins like shelving against the wall, piled in tiers six deep. Sleeping on the floors of the Zappeion Exposition Hall in Athens are a thousand other boys recently brought from Asia. In the Royal Palace itself, facing Constitution square in the heart of Athens, four hundred girls are housed, safe from Turkish oppression at last. "In summer hotels along the sea coast between nine and ten thousand Armenian orphans have been given shelter but some other places will have to be found for them before the Greek summer season opens and the hotels must be surrendered. One of the biggest problems facing Near East Relief now is, where shall these orphans go? Until they are old enough to care for themselves and able to earn a living Near East Relief will not abandon them and will again place them within reach of Turkish authority."

SENEY CAMP GROUNDS MAY PASS TO CONTROL OF WYOMING CONFERENCE

(Concluded from Page Six.)

rural; we have no large cities with in our bounds and consequently few large influential and financially strong churches. Money matters are close and our pastoral support and benevolence come mainly in small gifts from the many. The modern rural pastor must be all things to all men. Out in the rural life where interests are few and intense, where the eye is sharp and the light is strong, things become intensely real. It is such environment that a man must have full-length and width-pure in heart; and of a fine mental balance. Here, where the people do not move as quickly as in the city pastorate, the messenger of God must put his imagination into the view point of his parishioner and become intensely practical with his otherworldliness. Anybody can preach the dull didactic of this world, but to translate the things of God into the language of the day in our rural communities is quite another thing. The world's heart is aching for assurance of that kingdom beyond the stars and it remains for us to flash the light of Heaven they need.

Church Improvements.

First church of Oneonta is rapidly approaching the time when a new church building will be erected, which will be one of the finest in Methodism. The late George I. Wilber, whose demise took place on July 12, 1922, has left the church \$100,000 toward the fund. Besides this he gave in real estate and bank stocks which will net the church the handsome sum of \$15,000.

Buquochanna will build a fine church next year. It was expected that the building should be begun this year, but upon the advice of the district superintendent, it was deferred until next year, when it was hoped that labor difficulties would be settled. On January 11, a meeting of the entire congregation was called by pastor H. W. Thomas, when the plans were presented to the people and the fourth quarterly conference which followed, decided to break ground for the new building April 1, 1923. The new church will be centrally and strategically located on Main street of the city.

Late in the summer the official board of Afton, under the leadership of W. D. Lathrop, invited the district superintendent to present the subject of Stewardship at a special service on Sunday morning. They unanimously decided to adopt Stewardship as their financial method for the rest of the year. The result was that not only have they taken charge of their regular church budget, which early in the year seemed to have reached the point of impossibility, but they have laid a new floor in the auditorium, put runners on aisles, repaired the interior of the entire church and put in new hymnals at a total cost of seven hundred dollars which was promptly subscribed.

At Bainbridge, where M. V. Wilber is the pastor, a new steel and copper bulletin board graces the front of this fine village church and a beautiful baptismal font has been placed within the altar, gifts of two consecrated parishioners. Other improvements in the church and parsonage property have been made at a total cost of \$1,150. At Tunnel, on the Chenango Forks charge, under the leadership of A. F. Knapp, a beautiful new church has been erected at a cost of \$5,449. The corner stone was laid on May 31, and the church was dedicated on October 15, by the district superintendent, and the sum of \$1,372 was raised to cover the balance of the indebtedness with a good margin.

At Cooperstown, Elmer Bohne, Echolt has transformed both church and parsonage. The latter has been remodeled and enlarged, providing a new study and sleeping room on the upper floor and a large room with fireplace below. Oak floors, paint, and paper throughout, and a new porch have been added at a cost of \$2,000. The interior of the church has been redecorated and battlement linoleum laid throughout the auditorium, while the social rooms were remodeled and redecorated at a cost of \$1,000, making a total of \$7,000 in improvements. At Union Valley, on the Coventry charge, the church was painted and the sheds put into repair with other work at a cost of \$500, all of which has been provided for through the faithful work of the pastor, Arthur H. Landmesser.

At Garrettsville, Dunn G. Henshaw has renovated the parsonage, installed a new water system, renovated the interior throughout, and built a new cesspool. On account of the renewal in Sunday school work, the old gallery of the church was remodeled to make room for a class of young people at a cost of \$600.

Hale Eddy has made extensive repairs. The church was raised to make room for social purposes below the auditorium, and a large modern plant was installed. The entire auditorium has been renewed with new pews and wall paper. The total cost is \$2,666. In the later part of June the new pastor, at McClure, C. H. Osborne, came from England with his young bride. They moved into a beautiful modern home with all conveniences. The whole house was raised fourteen inches and a new foundation put under, new floors laid, and electric lights, pipeless furnace and bathroom installed. The whole house was decorated, inside and out, dining room furniture purchased, and a new porch built. The total cost was \$1,442, all of which has been provided for, but most of it is already paid. All this has been done by this rural charge of but few members, and with but \$100 aid from outside sources.

C. C. Vets of Onondaga has led the people at Oneonta Plains to freedom from debt. The last \$475 against the property was paid during January and a new four foot cement walk was laid from the church to the road early in the fall, the expense of which was cared for by the Ladies Aid society. Besides this \$700 was raised on other improvements, and \$1,525 on debt.

I. D. Arnold of Onondaga deserves much credit for his wise management and untiring work in erecting a new parsonage and community house. This is one of the finest rural centers in the conference. The parsonage with all modern improvements is a little gem, and the community house between the parsonage and the church meets a long felt need. Pastor Arnold not only looked after the financial part of this work but did much more.

ual labor through the entire summer. A gift of \$3,000 has come from the Home Mission board and the entire cost is \$10,000.

At Oneonta, where W. E. Elwood is pastor, the parsonage was removed throughout with new hardwood floors, paper and paint, and a new coat of paint was put upon the exterior of the parsonage and church. The old sheds were removed and the grounds surrounding the church and parsonage greatly improved and beautified at a cost of \$1,792.

One of the heroic undertakings of the year on the district was at Wells Bridge. Here the church has been raised to permit the rooms for social and recreational purposes. The auditorium has been rebuilt and new art windows placed in the entire church. The approach to the church is one of the finest we have ever seen, with steps of concrete leading both to the auditorium and the basement. They are ornamental as well as serviceable. If L. Snyder, the enthusiastic and indefatigable pastor, deserves great credit for the accomplishment of this apparently impossible task. The rededication services were held during the week of January 2-7, at which neighboring and former pastors preached. The district superintendent preached the dedicatory sermon, after which the pastor announced that \$1,500 was needed to cover the \$4,000 expended. In a few minutes this was raised with great rejoicing.

At Westport much needed improvements have been made to the parsonage, with a new bathroom and furnace at a cost of \$200.

At Worcester, the out-appointment of the Decatur charge, R. F. Leah has purchased and put into the church the carpets, pews, pulpit furnishings, and organ of the South Valley charge, once a part of the Decatur charge, but now abandoned and sold on account of the exodus of Methodists from that community. This makes the Decatur church one of the best furnished country churches of the district.

W. C. Dodge has had a good year at Elm Park. A handsome new parsonage and garage, both of stucco to match the church, have been erected at a cost of \$6,000, and a new heating plant was placed in the church at a cost of \$1,000. The salary this year was advanced \$800 over last. Notwithstanding the railroad strike which lasted the entire year, and the church made up largely of railroad men, the recent canvass for the next year's budget showed an increase of 50% over last year. The membership has been increased by 26, and a program of religious and social activity has been set on foot for next year. This is now one of the best charges of the district.

At Davenport under the leadership of Ira L. Bronson, a new acetylene gas lighting system has been installed in the church at a cost of \$310.

Other churches have made improvements as follows: North Star, \$50; Mt. Vernon, \$45; Fly Creek, \$45; Sanitar Springs, \$200; Mt. Union, \$400; Schenectady, \$400; Milford, \$400; Guilford, \$575; East Worcester, \$300; Edmeston, \$500; Sidney Center, \$100; Sherburne, \$165; McDonough, \$600; Lanesboro, \$400; First Church, Oneonta, \$854; Davenport, \$412; Davenport, \$412; Davenport Center, \$100; Plymouth, \$160; Preston, \$100; Worcester, \$450; West Exeter, \$80; Buquochanna, \$1,500; and Morris \$20. The total is \$3,956.

Evangelism.

The pastors reports show that on nearly all the charges, evangelistic meetings have been held during the year, and large additions have been made to the membership of the church. In many cases the pastors have been their own evangelists, and this we believe to be the ideal plan. While we do not lack appreciation for the professional evangelist and his blessed work it is our conviction that the most lasting and valuable work is done by the faithful pastor assisted by his consecrated laymen.

Dr. Burns of Philadelphia assisted W. S. Turk of Guilford in a series of evangelistic services. Fifty-three were received into the church and some of the manifestations are increased interest in the regular services of the church, a fine increase in the Sunday school, an increase in the prayer meeting, and a large number of conversions, nearly every week for some time following the meetings several organized classes for Sunday school work and an assurance that all Centenary pledges will be paid on the charge this year. That is the right kind of a revival, and may the Good Lord give us more of them.

Dr. Burns has also assisted Frank Young at Norwich and 24 have been received into preparatory membership, with others to follow.

Dr. J. W. Flynn, though less than three months at First church, Oneonta, has received 100 new members.

Other churches of the district report a total of 237 conversions. Where many conversions and accessions to the church have not taken place it is not due to lack of faithfulness on the part of the pastor or people. The economic conditions have in many places paralyzed to a large degree, both the financial and spiritual work of the church, and the impossible conditions of both country and state roads for almost the entire winter, has worked havoc with our services, in some places closing the doors of the church for many weeks.

With profound thanks to God for the blessings of the year, and sincere prayer for His constant guidance, I submit this report.

LED FIRST U. S. TROOPS IN EUROPE, AND LAST TO LEAVE

Major J. W. Downer, U. S. A., commanded the first United States army unit to enter France, and returned with the very last troops to leave the Rhine. Major Downer sailed for France July 27, 1917, as commander of the Sixth field artillery, First division, A. E. F., Battery A. He commanded the First and Second battalions of the Sixth field artillery, which fired the first shot in the war for America. At the seventh Olympic games, Antwerp, 1920, Major Downer was a member of the American riding team.

He has been awarded virtually every war medal or cross of every one of the allied nations—D. S. C., Croix de Guerre, Belgian Military Cross, Montegrin Order of Danilo; French Legion of Honor, etc.

She Was So Cruel.

Five-year-old Billy was teasing his mother for something to eat, but was told that he must wait until dinner was served. He was moodily silent for a moment; then he exclaimed: "Honestly, mamma, I just believe you are only my stepmother."—Boston Transcript.

DOG FINDS FAMILY RICHES

Fortune, Considered a Myth, Dug Up Near Alabama Homestead.

A dog, clanking frantically in a tower near an old homestead at Courtland, Ala., uncovered a priceless treasure chest filled with gold and silver coins and plates of the Saunders family, one of the most prominent families in the South "before the war." Miss Josephine Saunders of Memphis, Tenn., is believed to be the fortune, which for years has been considered a myth.

According to an old family legend, an aged colored slave hid a chest of money and silver during the Civil war, then died of apoplexy before he could get back to his master. Searches at intervals for 40 years brought no trace of the fortune, and the family dismised it as "an old woman's tale."

Miss Saunders has been informed that the find is authentic and that the value of the relics is great. Gold coins, none of later date than 1800, and some dating back to 1700, were found in the treasure chest.

Home-Grown Orange Blossom.

At a wedding at Baldon, near Bradford, England, the orange blossom carried by the bride and worn on her gown was taken from a tree reared at her home from a pip of the first orange eaten by her as a child.

Ancient Jewish Coins.

The first allusion to Jewish coinage is found in the Apocrypha in I Maccabees, 15, where it is related that Simon, the high priest, was granted permission to coin money bearing his own stamp.

HOW ANTIQUES ARE FAKED

Genuine Furniture Is Taken Apart and One Piece Put in Each of Many Imitations.

London.—The methods by which thousands of persons are cheated annually through the sale by dealers of antique furniture, draperies and porcelain which are "faked," were shown recently when an antique dealer was brought into court charged with fraud. During the trial it was declared that dealers sell thousands of pounds' worth of antiques every year to American tourists visiting England, and that probably less than 5 per cent of the purchases are real.

The methods of the antique dealers in faking their wares are carried out so skillfully that the experts differed widely in their opinion of many of the pieces brought into court. The favorite system of the crooked dealer is to obtain a genuine antique of a certain period, for instance, a chair. This he will take apart and reconstruct a number of new chairs of the same design, each one containing a section of the original chair. It was shown during the hearing that an antique bedstead had been taken to pieces, and that the 12 duplicates fashioned in accordance with this system had sold for \$5,000 each.

In faking china the work is more difficult. Here the dealer must make copies conforming minutely to the original and bearing the maker's signature. This requires skill which few persons possess nowadays, and which easily baffles the experts.

It is estimated that 60 per cent of the antiques now being shown in London are not what they are represented to be.

Here's Richness!

From an Iowa student's examination paper: "Shakespeare was married when eighteen and became the father of twins, Romeo and Juliet, at twenty-one."—Exchange.
